

Lotus Folding

Tri-Ratana Style

1. Use the index finger to press at the middle of the lotus petal.

2. Fold the left side and the right sides toward the center.

3. Create a triangle by then.

4. Continue doing this to the entire petals.

Tips:

1. Fold the petals gently.
2. Use water to help smooth lotus petals, so dip your fingers before folding.
3. Do not squeeze the petals.
